TRAINING CURRICULUM

- 16 training modules cover core competencies including assessment, planning, and evaluation. Each module offers a participant's guide with experiential learning activities and customizable PowerPoints with facilitator's notes. These are great resources for trainers, or our staff can be engaged to conduct these trainings.

EVALUATION

- With extensive experience in systematic documentation and evaluation of community and systems change, we can support your initiative through development of logic models, conducting community needs assessments, program evaluations, and creating evaluation plans.

COMMUNITY CHECK BOX EVALUATION SYSTEM

- Record, analyze, and report your organization's progress. Use real-time data to better understand and improve your initiative's efforts to achieve outcomes and share successes with funders and other stakeholders, and tell your collective impact story.
